Subject: RE: Birmingham Aug 20??

Cindy,

I have been working with Neema to coordinate a joint meeting for weeks. Neema is coordinating the EPA staff who will be participating in the meeting. I asked him several weeks ago to provide me with a list of EPA staff who will be participating in the meeting August 20 so that we could meet to coordinate efforts to plan the meeting. Neema told me he could not move forward with meeting plans until Anita returned to the office today, per her request. I put the ATSDR planning on hold until this week per Neema's request.

I would like to finalize ATSDRs plans for the meeting as soon as possible and would like to meet with EPA Thursday morning to discuss meeting plans. I understand EPA would like to have a public meeting. ATSDR plans to have a public availability session (PAS) because we believe this is the best way for us to provide information about the soil health consultation to community members. I recommend having a PAS that starts 1 or 1.5 hours prior to the public meeting. Then we can transition to the public meeting so that people can attend both meetings at one location, and back to back.

I will be reachable via cell phone tomorrow at 404-747-4185 to discuss. I am as interested in getting the joint meeting planned as you are, and I look forward to working with you to plan the joint meeting.

Sue

Sue!!

Thanks for reaching out! I just found out today that you guys are planning an event on Thursday, Aug 20. We are too. I'm hoping we can use the same facility that evening so we don't divert the public's attention to both very important matters. That way, people can come for one, another or both. But, they won't have to decide between because they can't be 2 places at one time. We can work around whatever you'd like us to. Brian Holtzclaw is working on space availability for that night. Unless, you already have space identified.

Me or Brian will be in touch soon!!

Thanks!

Cindy

Hi Cindy,

Sue Casteel is organizing the public availability session for ATSDR. She's coordinating with Anita Davis.

Leann,

I just learned that Superfund/ATSDR is hosting a public availability session in Birmingham on Aug 20. I'm assuming you know about it, but we can always work through Superfund (and/or Anita Davis) to find the right folks. We are also planning a public meeting that night to follow our planned day-long session with community leaders.

I was thinking that maybe we could have the community meeting in the same place you have the availability session. And, we'd either follow on yours or vice versa. I just don't want to create the demand people will feel to be in two places at one time. Do you know who we could talk to about that?

Thanks!

Cindy
